

Join the MPO Today!

Last Updated Tuesday, 13 April 2010

JOIN Now! The Meta-Data Professional Organization (MPO) is a non-profit, international, professional association comprised of business and IT professionals in all areas of meta-data practice, including administrators, developers, architects and managers.

The MPO brings together individuals with interests, expertise, or hands-on experience in meta-data use from all areas of private and public enterprise throughout the world and seeks to disseminate technical and professional information to meta-data practitioners of all levels of experience.

The MPO provides meta-data professionals with a community that fosters discussion, advancement, and increased understanding of meta-data as it is applied in the field. [Read more](#)
